**What is the Estimated Cost of Attendance at UGA?**
The Cost of Attendance (COA) is an estimate of the total amount of your educational expenses for the period of enrollment during the Award Year and is reflected on your financial aid Award. The COA is based on whether or not you are a Georgia resident, your program of study, and if you live on or off campus while attending the University. The Cost of Attendance is used for budget purposes and does not represent the actual amounts the student will be billed by the University. Individual costs will be determined based on the services you register for when you attend.
